

THE AI FRONT DOOR FOR DENTAL PRACTICES

Every call answered. **Every patient booked.** **24/7.**

Enamly is a HIPAA-compliant AI receptionist built specifically for dental practices. It picks up every call day and night, answers patient questions, and books appointments straight into your schedule, so no call and no patient slips through.

THE PROBLEM IT SOLVES

The phone is where practices **leak patients.**

Calls go unanswered after hours, during lunch, and when every line is ringing at once. Those callers rarely leave a voicemail. They just call the next practice.

Every missed new patient is worth about \$5,000 in first-year value alone, and several times that over a lifetime.

WHAT ENAMLY DOES

A front desk that **finishes the job.**

Answers **24/7/365**, including after hours, weekends, and holidays

Handles **5+ calls at once**, every one on the first ring

Never miss another patient call

Books, reschedules, and cancels directly in your PMS

Captures patient and insurance details on every call

[Book a Demo](#)

Triages **emergencies** and routes urgent calls right away

Speaks **20+ languages** (Spanish, French, Chinese, Arabic, and more)

Sounds human, so most patients never realize they are talking to AI

Logs every call: recording, transcript, summary, and **follow-up tasks**

Tracks the **production** each booking generates

HIPAA-compliant end to end

WHY IT IS BUILT FOR DENTISTRY

Not a generic phone bot.

Enamly is purpose-built for the dental front desk, with dedicated handling for new patients, existing patients, emergencies, insurance questions, and scheduling. That means accurate answers, correct bookings, and no made-up information.

THE RESULTS

\$53,020

In added production, booked by Enamly and tracked through checkout in three **months** at one real practice, from just 10 of 47 booked patients who have completed treatment so far. Every booking is tracked, so you see the exact dollars Enamly puts on your schedule.

★ 27 new patients in a single month, their best on record

 Never miss another patient call

HOW IT WORKS

Live in days, **not months.**

1

We build it

We configure your custom agent, load your services and insurance, and connect your phone line and PMS.

2

Enamly answers

Every call is picked up, triaged, and booked, with full notes logged for your team.

3

You grow

New patients and production roll in from one simple dashboard.

WORKS WITH YOUR SYSTEM

Integrates with **any PMS.**

Including Open Dental, Dentrix, Eaglesoft, Denticon, Oryx, The Dental App, Archy, and more.

Open Dental

Dentrix

Eaglesoft

Denticon

Oryx

The Dental App

Archy

+ any other PMS

 Never miss another patient call

See it in **action.**
